## RURAL TELEPHONES UNDER CONSTRUCTION

CONTRACTOR STARTS WORK ON TWO LINES RUNNING NORTH-EAST AND EAST OF MIRROR—TWENTY SUBSCRIBERS ON THE TWO CIRCUITS—LONG DISTANCE SHOULD BE HERE BEFORE WINTER

Work on two new rural telephone lines that will have Mirror as their central commenced on Monday of this week, and with good weather, connections will be made in six weeks. The line starts at the corner of Carroll avenue and Lake street, and follows the latter east to the Lamerton road, and thence north.

W. McQuade, who has charge of the construction states that the work will be rushed as fast as possible, and he fully expects to complete the work in the time stated. 21 men constitute his force of workmen.

Both lines will connect with farmers to the north-east and east of Mirror. There are nine subscribers on circuit No. 1, viz., W. D. Cook, Lamerton Mercantile Co., L. O. Phelps, O. D. Cook, K. Stinson, W. Cook, Chas. Ludwig, T. H. Stevenson, L. Y. Clarke.

On circuit No. 2 are the following: H. C. Brewster, C. E. Ludwig, Mrs. T. M. Bergner, Chas. Johnson, W. Puffer, Geo. E. Cook, J. D. Murdoch, T. Shields, Jno. Stevenson, Thos. Rider and Mr. Peterson.

When completed there will be about 11 miles of line in the first circuit and 15½ miles in the second.

It is impossible to find out just when the line between Camrose and Calgary, will be constructed through Mirror, but it is surmised that it will be shortly. The two circuits now being built, will be of practically little use, so far as the long-distance is concerned, until the main line is in operation. The local telephones will not be installed until after the long-distance is in working order, which will be some time this fall.

There are several other applications filed for rural lines, but it will be another year before they can be constructed. With the proposed lines working, Mirror and district will be well equipped with telephonic communication.

The department of trade and commerce at Ottawa, is sending a circular to all Boards of trade throughout the Dominion, asking for authoritative statements as to the productive capabilities of the district in which each board is located. The boards are also asked to state the drawbacks from which any district may be suffering. The information will be submitted by Hon. George E. Foster to the imperial trade commission.

## Farm Lands--House

One Section and a Half of Choice Farm Land; 200 acres under cultivation; 3½ miles from Buffalo Lake Siding. One of the best.

One Section and a Half, 7 miles from Mirror; 200 acres under cultivation. This is an A1 stock farm.

Storey and a Half House, 6 rooms, pantry, 3 Closets, cellar, plastered and well built throughout; close to Depot. For terms of the above apply to

Fred. Dowswell, Carroll Avenue, Mirror

## Drugs and Jewelry

IN OUR DRUG DEPARTMENT we have a full line of Rosal Remedies, Nyal Remedies, Na-Dru-Co. Remedies, Toilet Soaps, Perfumes, Talcum Powders, Creams and Toilet Goods. Eastman Kodaks and Brownies, Films and all Supplies. Edison Gramophones and Records. International Stock Food and Veterinary Remedies. Drugs and Chemicals and all the popular Patent Medicines. Also full line of Jewellery. Watch and Clock Repairing Guaranteed.

SUGGETT BROS. - Mirror, Alta.

## Farm Lands and Town Property for Sale

Fire, Hand and Live Stock Insurance 1-2 to 10 Acre Plots Adjoining Mirror Beach C. P. R. Lands

MIRROR REALTY CO., Mirror, Alta.

## EVENTS AROUND TOWN AND DISTRICT

### Doctor Goes to Clyde, Alta.

Dr. C. C. Gibson, who practiced here for a short time this summer, has gone to Clyde, Alta., where he will open an office.

### Drug Dispenser Returns

Chas. D. Suggett returned on Wednesday after a month's absence and is again in charge of the drug department of Suggett Bros.

### Thanksgiving Service

On Sunday, Oct. 13th, a special Thanksgiving service will be held in St. Monica's church, Mirror. The services begin at 3:30 p.m., and an invitation is extended to all to attend.

### Will Address Convention

Rev. H. Brooke will deliver an address at the Sunday School Convention to be held in Ponoka on Monday, Oct. 14th. The subject of his address is "The Pastor's relationship to the Sunday School."

### Court of Revision

A Court of Revision will be held on Monday, Oct. 28, 1912, on the village assessment. Any persons having a complaint against the assessment on their property should notify the Secretary-Treasurer of the Village before that date.

### First Snow of the Season

This district experienced its first touch of Winter on Tuesday last, when a slight flurry of snow blew in, but only lasted a short time. It will be a month or two before Mother Earth is enveloped in her mantle of white.

### The Kootenay Magazine

We have received this week the first copy of the Kootenay Magazine, published in the interests of fruit, vegetables, poultry, logging and mining. The magazine has many illustrations and deals with B. C. Road Harris' ad. on page 4 of this issue.

## IMPORTATION OF PURE BRED HORSES

Word has been received from A. Jacques, who left here some time ago on a purchasing trip to the Old Country, that he would be leaving there this week, bringing a large shipment of horses of the Suffolk Punch breed.

The consignment will consist of 9 stallions, rising 2 years; 1 stallion, rising 3 years; 6 stallions rising 5 years; and 4 fillies. The horses will be shipped via C. P. R. and will arrive at Alix.

Mr. Jacques is a firm believer in thorough bred stock and the introduction of 20 head of Suffolk Punch horses to his ranch on Buffalo Lake will be the means of increasing interest in this breed of horses.

The provincial Government are carrying on a program of education regarding the raising of pure bred stock, and the horses imported by Mr. Jacques should facilitate considerably in the improving of horse flesh in the province. Incidentally it will draw attention to the fact that Mirror is situated in one of the finest stock-raising districts in Canada.

Mr. Hunt, of Olds, who accompanied Mr. Jacques to England, is bringing a shipment of 100 horses, comprising Percherons, Clydes and Shires.

### Seriously Ill

We regret to report that Jas. Earl, who resides north of here, is seriously ill. Dr. Mathews, of Ponoka, is attending the patient.

### Mirror Grading Outfit at Delburne

Frank Tulloch is away this week to Delburne, Alta., with his grading outfit, and will grade the track leading to the elevator sites at that point.

### Granaries On The Increase

The McCormack Lumber Co. has disposed of a quantity of lumber during the past week to be used in the erection of granaries. Those who are building are Sam Tulk, Clyde Brewster and Ben Sutley.

### Lantern Lecture Last Wednesday

Rev. J. P. Westman, of Calgary, gave a lantern lecture in the Mirror Methodist church on Wednesday evening last. Rev. Westman is secretary of the Sunday Schools and Epworth Leagues for B. C. and Alberta.

### Former Bank Manager Transferred

H. S. Oates, who was the first manager of the local branch of the Bank of Commerce, and who was transferred about a year ago to Milk River, Alta., is now managing a branch of the above bank at Blaine Lake, Sask.

### We Should Hope So

"During a discussion of the fitness of things in general, some one asked, 'If a young man takes his best girl to the grand opera, spends eight dollars on a supper after the performance, and then takes her home in a taxi, should he kiss her good-night?' An old bachelor who was present growled, 'I don't think she ought to expect it. Seems to me he has done enough for her.'"

### Board of Trade Meeting

Attend the Board of Trade next Tuesday evening, Oct. 15th.

## VOTE ON MUNICIPALITY ACT ON SATURDAY

A plebiscite on the proposed Municipalities Act will be taken in this district next Saturday. The polling booth in Mirror is situated in the Transcontinental Townsite office. Jas. Brindle will be the returning officer.

## VILLAGE COUNCIL

All the members of the village Council were present at regular monthly meeting held last Monday evening in Chairman Raymer's office. G. A. Calvert acted as Secretary, pro tem.

The following accounts were passed and ordered to be paid: F. Tulloch, road work, \$513.15; F. Tulloch, " " 201.50; W. D. Cook, fee as returning officer, 5.00.

A letter from the Minister of Education was read, stating that the department approved of the change in the Lamerton school district, which will be known as the Mirror school district.

It was decided to interview the bank re loan on assessment, so that grading on the streets can be finished before the freeze up.

Council then adjourned.

## VISITOR RECEIVES AN AGREEABLE SURPRISE

INFORMED AT NEIGHBORING TOWN THAT MIRROR CONSISTED OF SIX PEOPLE AND THREE HUTS, AND ADVISED PASSING UP MIRROR—VISIT PROVES THE FALLACY OF THE STATEMENT

G. Robinson, of Munson, Alta., who was a visitor in Mirror for a few days last week, was agreeably surprised at the existing state of affairs in town, as he had come here with the expectation of finding a hamlet, inhabited, at the most, by a few primitive men who were domiciled in a couple of huts. This erroneous impression was conveyed to him by a misinformed traveller at Stettler, who when in town, had evidently been blind to the world, owing in all probability to the influence of the pernicious habit.

Nothing could be more detectable on the part of any civilized human being, than the conduct of which this man was guilty. For some inscrutable reason

there are individuals who would like to bring Mirror down to the level of their own towns, and do not let an opportunity pass, when by maligning us, they can take from the social status of our city.

Nobody, who has been to Mirror, could possibly believe such a tale, and it is to be hoped that Mr. Robinson will not forget to bring the true facts of the case before his less fortunate friends, who have not had an opportunity of seeing Mirror for themselves.

Mr. Robinson departed with a firm belief in the future of Mirror. "There is hope," he said, "the nucleus of a splendid city," thus voicing the sentiments of all who have the interests of the town at heart.

## WHITEFRIAR BOULEVARD WILL BE GRADED

S. G. Dunham, councillor for the Local Improvement district has agreed to expend part of money raised in the village of Mirror by the L.I.D., and the work to be undertaken will be the grading of the northern part of Whitefriar boulevard, outside the village limits.

The opening up of the boulevard will give a direct route to the business part of the town, and will be used by traffic from the north and east of Mirror.

W. D. Cook has been awarded the work on the road.

## MUNICIPALITIES ACT DISCUSSED

W. F. Puffer, M. P. P., and A. D. Fuller, of the department of municipal affairs, addressed a

meeting of ratepayers in Lamerton school house last Monday evening. The meeting was called for the purpose of explaining the proposed Municipalities Act.

Owing to the fact that the notices calling the meeting were posted at the eleventh hour, only a small number of farmers were in attendance.

## NOTICE

Local Improvement District No. 21-R-4

NOTICE is hereby given that all persons having claims against Local Improvement District No. 21-R-4, are required to send particulars of such claims to N. A. Donaldson, at Manfred P. O., the Secretary of said district, before the Seventh day of November, 1912; and that any person who fails to do so shall be deemed to have waived the same from said district or any other district that may be liable for the liabilities thereof.

Dated at Manfred this Fifth day of September, 1912. N. A. DONALDSON, Sec.-Treas. L.I.D. 21-R-4.

## GOLFER BURRELL

Mr. Lester in Galt's Well: That He Can Beat the Premier.

When old "The Lincoln" Burrell was carried down by Premier Borden as Minister of Agriculture in favor of Martin Burrell, the Englishman, on his way to Niagara and the British Columbia fruit belt, people in Ottawa wondered why it was. But now the secret is out.

Last year, when the Conservatives were holding up supply in view of upping the reciprocity agreement, Mr. Borden, then plain Robert Laird Borden, took Martin Burrell out to the Ottawa golf links and inflated him into the mysteries of the ancient and royal game, or whatever it may be that the golfers call it. But it makes no difference as to what the name may be. The fact remains that when Mr. Burrell had been given a trial course over the Ottawa golf links he turned to Mr. Borden and said: "Wait until we get into power, and then I'll show you how to play golf."

That was months before Mr. Burrell, practicing on his golf links, was called, like Cincinnati from the affairs of the state, to take part in the administration of the affairs of his adopted country.

But no sooner had Mr. Burrell been sworn in as Minister of Agriculture in October last than he made up his mind to prove that his challenge to his chief was no vain boast.

He could not play golf in winter, though he became a member of the Ottawa Golf Club just as soon as he could, after he was sworn of the Privy Council, and he tried his pretence hand for a while even while the frost was reddening up the pumpkin. But if he could not play golf he determined to do something else which would distinguish him as a member of the Rideau Club, and he had not been a member thereof more than three weeks before he won the amateur hilliard championship of the club, and so he remains to this day, despite many challenges.

But good though he may be at billiards, the Minister of Agriculture is a "friend of golf." Ever since the hawks have been open this year, whatever the weather, no matter whether it has rained or whether the sun has been shining, Martin Burrell has been "on the job." He defeated Mr. Borden, wiped the green with Hon. W. C. White and Hon. G. H. Parley, and he is now waiting for new heroes of the links to conquer.

Afternoon after afternoon finds Martin Burrell out at the Ottawa links. So enthusiastic has he become that he plays until the candle cannot see the ball, and until his good wife is afraid that the snop will be cold before Martin gets home. Nothing can stop him, not even the Lord's Day Act, for when Sunday comes he is on the links long ten o'clock and he stays there all day. But then the Ottawa golf links are located in Quebec and the laws of Quebec do not prohibit Sunday golf.

## The Drunkard's Clock.

In the time of the Commonwealth, in England the magistrates of New castle-upon-Tyne punished drunkards by making them carry a tub called the drunkard's clock. This tub was

bottom upward, there being a hole at the bottom for the head and two smaller holes in the sides for the hands to pass through, and thus rudely altered the delinquent was made to walk through the streets of the town for as long a time as the magistrates thought proper to order, according to the enormities of the offence.

## Farm Dairying

De Kol Creamline, Holsteins With Record of 26,280 Pounds of Milk in One Year

## XIII.—Difficulties In Churning.

By LAURA ROSE.

Demonstrator and Lecturer in Dairying at the Ontario Agricultural College, Guelph, Canada.

Copyright, 1911, by A. C. McClure & Co.

**A**LTHOUGH all the difficulties met with in the dairy can be avoided by wisdom and care, but as they do come it is expedient to know how to meet them. The causes of cream not churning within a reasonable time are various.

First.—Too much cream in the churn. If it swells and nearly fills the churn, churning practically ceases. Remedy: Take out half the cream and make two churnings. It will save time, butter and patience. A person is almost a saint who can be good natured at the end of three hours' hard churning. Never fill the churn over half full.

Second.—Cream too poor in fat. Where there is a large amount of skim milk in the cream, the fat globules do not have the same coagulation of casein of coming in contact and mixing together. Such cream requires a high churning temperature to soften the globules, so that with the increased force and contact they may adhere to each other. Remedy: If the temperature has been low at starting, and if after churning over half an hour there is no sign of better, pour the greater portion of the cream out into a cup or pail, and set it in a vessel of warm water, stir constantly and raise the temperature of the cream eight or ten degrees and return it to the churn. This takes half a day, and the cream is not so good as the original.

It melts the fat, coagulates the casein and produces a pale colored, weak bodied butter with white specks of curd through it.

## Cream Poor in Fat.

If the poor cream comes from pans or deep cans allow the milk to stand longer before skimming and remove the cream more carefully. If from a separator, adjust the screw to take a richer cream, and be careful no water or skim milk runs into the cream can. Remember that cream poor in fat always means a serious loss of butter in the butterfat.

Third.—Sometimes the butter breaks, but will not gather. It remains like blue may seed or runny up like small shot. This is due to one or more of four causes: cream poor in fat, cream cold, cows getting nothing but dry food and cows milking a long time.

The fat globules in strippers' milk are small and of a hard, rubbery nature, making a high churning temperature necessary. Sometimes there is present in such milk a viscous substance which prevents the mixing of the globules. I have known many people to lose churning after churning from this cause. To avoid such cream while it is sweet (best) to 180 degrees and then cool down greatly.

A fresh cow coming into the herd has a marked effect in improving the cream. The cream is richer than the dry, condensed feed of winter produces butter fat which has a melting point several degrees higher than the fat produced from the succulent green food of summer. This accounts for the necessarily higher churning temperature in winter. A judicious selection of foods materially helps the churning. Customized cake, hay and straw tend to harden butter. Lined cake,ilage and roots have the opposite effect and make churning easier.

Remedy: If there is no sign of the butter gathering after breaking, when you have churned for five minutes slowly or when on looking at the lid the granules appear to be running up, to churn longer without doing more than is needed. Add two or three quarts of water several degrees warmer than the cream. The water dilutes the butterfat and causes a better separation of the butter. Revolve the churn a few times, let stand a little while, then draw off about half of the butterfat, straining it through a fine sieve or strainer to catch any particles of butter. The liquid thus removed and the churning continued, the butter should soon gather into the required solid granules. In cases of very poor cream it may be necessary to reduce the butterfat further.

Fourth.—Churning in a cold room with lower the temperature sufficiently to retard the coagulation of the butter. Warm the cream as before described. Start with the cream warmer than usual under such conditions.

Fifth.—Very rich cream will thicken or "go to sleep" in the churn, and the butter will not gather. Remedy: All that is necessary is to add water or skim milk to the cream, and a little lower to this the cream, so that it can again float the churn.

Sixth.—The very slow revolving of the churn causes unnecessary delay in having the butter cream. Remedy: Churn as fast as you can, so long as

you allow time for the cream to drop. The greater the speed the greater the force exerted on the fat globules.

Seventh.—Overrun cream forms lumpy, almost filling the churn. Such cream is usually poor, cold and has present a gas producing ferment. Remedy: Sometimes a handful or two of salt and a little water at 70 or 80 degrees settles the foam. If this does not remove part of the cream and raise the temperature about 10 degrees. In very stubborn cases, as a last resort, I have added almost as much water as about 20 degrees as I had cream, re-ventilated the churn a few times, let stand several minutes, then drew off most of the liquid and, after churning a short time, have succeeded in getting butter.

I have known cream to run over the cream clock like yeast. A yeast germ or some other gas producing organism was at work. In such a case, procure the sweet cream and thoroughly disinfect everything which comes in contact with the milk or cream.

When Butter Doesn't Come.

Eighth.—In rare cases in summer I have had churning where butter would not come, and on examining the lid of the churn I could see minute shiny specks of oil as if the butter fat were in a liquid form. Remedy: Adding several quarts of hot water has brought the butter to view several times. This difficulty is more likely to occur when the cream is on very soft, watery pasture. Rank green clover often makes difficult churning for the same reason—lack of "body" in the milk fat.

Ninth.—When the butter color has been forgotten I have heard "Oh, my I didn't put in the butter color." The mistake can be rectified, but it means more work. Weigh the salt required for the butter and drop over it the same amount of water as the butter has been added to the cream. With a thin blade knife thoroughly mix the color into the salt and stir it over the butter. Proceed with the working as usual. The butter will seem in a hopeless condition. Allow it to stand for awhile, then carefully work it until all the streaks of color disappear. I have added the butter color in this way, and the butter secured full color.

Defects in Butter.

Light streaks or waves are due to the presence of butterfat and an uneven distribution of the salt. Salt brightens the color, and where it does so it is better to use more salt.

### GENERAL NEWS

Senator Talbot is seriously ill at his residence in Lacombe.

J. D. Ross, the man who duped the farmers around Fort Saskatchewan, playing the part of a stock inspector, was sentenced to 50 years in jail. He will only be confined three years, however, as the sentences are to run concurrently.

Mrs. Murphy, a passenger on the C. P. R. train, running west of Moose Jaw, died shortly after leaving Gull Lake. She was accompanied by her husband and two children and her mother. The party were on their way from Kansas to Stettler, Alta., where they had taken up land.

The Royal Alexandra hotel in Calgary has been sold for \$100,000.

Watrous, Sask., will build a large sanitarium on Manitou Lake, to cost about \$150,000. W. P. Hinton, general passenger agent of the Grand Trunk Pacific states that the railroad company will back the project with extensive advertising in Canada, the United States and Europe.

Wetaskiwin is increasing the school accommodation in that place, owing to the increase of pupils. The staff of the public school is now composed of seventeen teachers.

E. P. Davis, of Vancouver, has instituted a criminal libel suit against R. C. Edwards, of the Calgary Eye Opener.

The Grand Trunk Pacific has responded to the call for more harvest help in Western Canada, and will run another farm laborers' excursion on Oct. 14.

Bassano sold \$150,000 worth of waterworks and sewage debentures to an American bond house. Financiers state that this is the first time on record that an American firm has come to Western Canada and bid on municipal bonds.

M. Mecklenburg, A. M., the only University graduate eye specialist in the province, 315 Jasper, East, Edmonton, phone 5225, makes regular visits to Mirror. Watch for date. -36

### Lots for Sale

Party going south will sell Lot 7, Block 23; Lot 5, block 30, to highest bidder. Address owner—  
F. E. ROSS, 880 Granville Street, Vancouver, B. C.

### Patronize Home Industries...

"I do not know much about the tariff, but I do know this much: When we buy goods abroad, we get the goods and the foreigner gets the money; when we buy goods made at home, we get both the goods and the money."—  
Abraham Lincoln.

It is reported that an attempt was made in the Hotel Vancouver, Vancouver, by some crank, to assassinate Sir Donald Mann, vice-president of the Canadian Northern railway, last Sunday evening. Sir Donald's valet attacked man with the gun and thus saved his life.

### THANKSGIVING DATE DECIDED

Ottawa, Sept. 28.—A proclamation will issue within a day or so fixing Monday, October 28, as a public holiday and a day for general thanksgiving throughout Canada for the bounteous mercies of the past year.

ALEXANDER LAIRD, General Manager  
JOHN AIRD, Assistant General Manager

CAPITAL, \$15,000,000 REST, \$12,500,000

### TRAVELLERS' CHEQUES

Issued by The Canadian Bank of Commerce enable the traveller to provide himself with funds without delay at each point of his journey in a convenient yet inexpensive manner. They are issued payable in every country in the world in denominations of  
\$10, \$20, \$50, \$100, \$200  
with the exact equivalent in the moneys of the principal countries stated on the face of each cheque. They are economical, absolutely safe, self-identifying and easily negotiated.
